

Stephanos Theodosiou

Date of birth: 03/01/2004 | **Nationality:** Cypriot | **Phone:** (+357) 99158410 (Mobile) | **Email address:** stef11.st81@gmail.com | **Address:** Symis 7 Strovolos, 2044, Nicosia, Cyprus (Home)

WORK EXPERIENCE

01/06/2025 - CURRENT - NICOSIA, CYPRUS

SOFTWARE DEVELOPER3AHEALTH

- Front-end development using Angular and TypeScript, focusing on modular UI components and responsive design with Angular Material
- Contributed to Full-stack development with Angular (Front-end) and .NET / JavaScript (Back-end), actively working on new features and business modules.
- Working with tools like Git to ensure efficient development workflows.
- Found and fixed numerous bugs and optimized performance across the application, significantly improving system stability and user satisfaction.
- Integrating with RESTful APIs and handling data using Angular's HTTPClient, while ensuring secure and optimized communication between front-end and backend.
- Collaborated with back-end developers to build and test APIs using tools like Swagger, helping ensure accurate data flow and API reliability.
- Working on bug fixes, feature development, and performance optimization based on QA feedback and user testing.
- Participating in Agile/Scrum ceremonies, including sprint planning, stand-ups, and retrospectives, while using Azure for task management.

01/06/2024 - 31/07/2024 - NICOSIA, CYPRUS

FULL-STACK INTERN SOFTWARE DEVELOPER3AHEALTH

- Completed Udemy Angular and Udemy Full Stack Developer courses to strengthen web development skills.
- Built a basic WordPress website, applying CMS and design fundamentals.
- Identified and fixed bugs (using Angular) in internal projects under guidance from senior developers, improving app functionality and user experience.
- Gained hands-on experience in debugging, testing, and basic version control workflows.

EDUCATION & TRAINING

04/09/2023 - Current - NICOSIA, CYPRUS

UNDERGRADUATE STUDENT IN COMPUTER SCIENCE- UNIVERSITY OF CYPRUS

Website: www.ucy.ac.cy

01/09/2019 - 01/06/2022 - NICOSIA, CYPRUS

HIGH SCHOOL - PUBLIC GREEK SCHOOL ETHNOMARTIRAS KYPRIANOS LYCEUM

Achieved one of the highest grades in the Pancyprian Exams in Computer Science: 19.65 and received an award from the Scientific and Technical Chamber of Cyprus (ETEK) for this achievement.
Final grade: 18.25 | **Website:** lyk-strovolos-lef.schools.ac.cy

LANGUAGE SKILLS

Mother tongue(s): **GREEK**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	C2

● SKILLS

Microsoft Office 365

Microsoft Word | Microsoft Excel | Microsoft Powerpoint | Microsoft Outlook

Programming

Angular | Java | Javascript (React.js) | Html/Css | TypeScript | PHP, MySQL | Python | C / C++ / C# Languages | Git, Git Hub, SVN | Azure DevOps | Swagger

Social Media

Social media (Facebook, Instagram, Twitter, Pinterest, YouTube, Telegram, LinkedIn)

● PROJECTS

26/09/2025 - 05/12/2025

OSRH – Online Service for Ride-Hailing (Team Project | University of Cyprus)

Collaborated in a team of 3 to develop a full-stack ride-hailing management system using **PHP** and **SQL Server**, implementing role-based access control for 5 user types (Passenger, Driver, Company, System Operator, Admin). Key technical highlights include:

- Secure authentication with **SHA-256 password hashing**, session-based spoofing prevention, and **SQL injection protection** via prepared statements
- Complex database design in **3NF/BCNF** with triggers, stored procedures, views, indexes, and integrity checks
- **GDPR compliance** module with anonymization and audit logging via a `sp_GDPR_ExecuteDeletion` stored procedure
- Document lifecycle management with status workflows (Pending Accepted/Rejected) and expiry validation on login
- Real-time ride matching with **Haversine formula** for distance calculation and geofencing zones
- **SERIALIZABLE isolation level** to prevent race conditions in concurrent ride/payment operations
